WORK EXPERIENCE

Research Trainee

September 2015 - Present

Financial Research Division (DG/R), European Central Bank

Working full-time as research assistant with microeconometrics profile, assisting the DG/R's economists in academic research and policy advice.

The Financial Research Division is responsible for:

- Conducting research in the field of financial economics, including work on financial institutions, financial stability and systemic risk, banking supervision, financial regulation and macro-prudential policy, financial markets, payment systems and market infrastructures, European financial integration, international financial linkages and the design of monetary policy operations.
- Providing research-based policy advice, including contributions to the development and maintenance of empirical models, tools and analytical indicators in the areas mentioned above.
